DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4, 11 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 recites the limitations "a stack of a plurality of the semiconductor devices as set forth in claim 1" in lines 1-2 and "a stack of one or more element semiconductor devices" in line 3. There is insufficient antecedent basis for these limitations in the claim.

Claim 11 recites the limitations "a stack of a plurality of the semiconductor devices as set forth in claim 2" in lines 1-2 and "a stack of one or more element semiconductor devices" in lines 2-3. There is insufficient antecedent basis for these limitations in the claim.

Claim 12 recites the limitations "a stack of a plurality of the semiconductor devices as set forth in claim 3" in lines 1-2 and "a stack of one or more element semiconductor devices" in line 3. There is insufficient antecedent basis for these limitations in the claim.

Allowable Subject Matter

Claims 1-3 and 9 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: prior art references do not teach or render obvious a semiconductor device having the structure arrangement as claimed in claim 1, wherein wire bonding connection pads are at peripheral regions, surrounding an inside region, of an electrode terminal formation surface of a semiconductor chip; and a plurality of rewiring patterns are extending from respective peripheral regions to the inside region of said electrode terminal formation surface, individual ones of the plurality of rewiring patterns connecting respective, individual electrode terminals and corresponding connection pads and test pads.

Response to Arguments

Applicant's arguments with respect to claims 4, 11 and 12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2811

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
